### WEEE Legislation

(Waste, Electrical and Electronic Equipment)

Vacuum cleaner, accessories and packaging should be sorted for environmentally - friendly recycling.  
(Only for EU Countries)

Do not dispose of vacuum cleaner into household waste! According to the European Directive 2012/19/ EU on waste electrical and electronic equipment and its incorporation into national law.

Vacuum cleaners that are no longer suitable for use must be separately collected and sent for recovery in an environmentally - friendly manner.

## Information for Wet & Dry use vacuum cleaners

### WARNING

Read the instruction manual before using the machine. Operators shall be adequately instructed on the use of these machines.

As with all electrical equipment, care and attention must be exercised at all times during use, in addition to ensuring that routine and preventative maintenance is carried out periodically to ensure safe operation. Failure to carry out maintenance as necessary, including the replacement of parts to the correct standard could render this equipment unsafe and the manufacturer can accept no responsibility in this respect.

The machine shall be disconnected from the mains by removing the plug from the supply socket during cleaning or maintenance and when replacing parts or converting the machine to another function.

This machine is not to be used by children or persons with reduced physical, sensory or mental capabilities, or lack of experience or knowledge.

Children being supervised are NOT to play with the machine.

This appliance is intended to be assembled, cleaned and maintained by an adult.

This machine is not a toy.

This machine is not suitable for the collection of flammable liquids, biological hazards, and hazardous or explosive dust.

You should contact your local distributor if you require a machine capable of performing these tasks.

If foam/liquid comes out of machine exhaust, switch off immediately. Allow the accumulated liquid to drain out through the machine exhaust, check the float assembly to ensure correct operation, empty the container if full of liquid, reassemble the machine. Immediately upon start up there will be a certain amount of liquid issuing from the machine exhaust which will be the residue of liquid still within the power head. This will be quickly discharged after which the machine should function normally. Liquid ejected from the machine could be hazardous as a result of its temperature, pressure or chemical content.

### CAUTION

Ensure that the filtration system fitted to the machine is suitable for the material being collected.

This machine is for indoor use only.

This machine shall be stored indoors only.

When moving from one place to another, consider the weight of the machine.

NOTE:- This product complies with the requirements of clause 20 of IEC/EN 60335-2-69 Stability and

Mechanical Hazards.

If the supply cord is damaged, it must be replaced by a special cord assembly available from the manufacturer.

This machine is also suitable for commercial use, for example in hotels, schools, hospitals, factories, shops and offices for other than normal housekeeping purposes. This machine can be used for wet and dry pick up.

### DO

- Keep your machine clean.
- Keep filters clean.
- Regularly clean the water level limiting float safety valve and examine for signs of damage or correct operation.
- Keep hoses clear.
- Replace any worn or damaged parts immediately.
- Regularly examine the power cord, if damage is found, power cord must be replaced by a qualified person using the correct Numatic original part.
- Empty dust container frequently.
- Keep diffuser filter (where fitted) clean.
- Dispose of waste in an environmentally responsible way.

### DON'T

- Use steam cleaners or pressure washers to clean the machine or use the machine in the rain.
- Immerse in water for cleaning.
- Allow any inexperienced repairs. Call the experts.
- Use wet if float valve is not functioning or fitted.
- Use to suck up hot ashes, or lighted cigarette ends.
- Run the machine over the power cable during operation as a hazard may occur.
- Pull on the cable to unplug the machine from the power supply.
- Walk over-wet carpets, upholstery or fabrics.
- Walk on clean carpets until fully dry.
- Spray onto people or animals.
- Attempt machine maintenance or cleaning unless the power supply plug has been removed from the supply outlet.

## Fault Finding

If the vacuum cleaner stops working switch off and remove the plug from the wall before investigating where the fault lies.

If the vacuum cleaner has a blockage and will not pick up material, switch off and remove the plug from the wall. Check if the float valve has operated, this will shut off the suction and the pitch of the vacuum motor will change. Remove the power head and float cage and empty the waste out of the container, if the container is empty check that the floor tool, wands and hose are not blocked.

After use always inspect the machine for damage.
